

WEGA CONCEPT

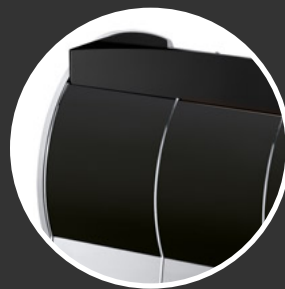

EVD- AUTOMATIC

BIG ON BRAINS. SMALL ON ENERGY.

Take your relationship to the next level with the new Wega concept Green Line Espresso machine. It's smart enough to memorize your workload and still be Eco-friendly. With certified energy savings of 47.6% during its rest period and 30% while operational, multiple boiler technology and digital temperature control.

The multiple boiler technology, apart from the energy saving function, which distributes power to the individual boilers only when required, guarantees an increased thermal heat stability of the coffee brewing boilers- giving you the perfect espresso.

STANDARD FEATURES

- Multiple Boiler Technology
- Individual Group Boilers
- Raised Groups
- Low Energy Consumption
- Certified Green
- High Safety Boiler
- Lever Operated Steam Wands
- 4 programmable buttons per group

Voltage/ Boiler Size/ Heating Element/W x D x H

2 Group: 220 / 8 Lt / 4,400 watt/ 31.50" x 23.63" x 23.23"

3 Group: 220 / 13 Lt / 5,600 watt/ 40.95" x 23.63" x 23.23"
