

MININOVA

EVD- AUTOMATIC EPU- SEMI AUTOMATIC

The Mininova is a small and versatile cappuccino machine. It is suitable for both professional and semi-professional use. Its small size and easy use makes the Mininova the perfect coffee machine for offices and cafes with low coffee volumes.

Available with an internal volumetric pump, for connection to the water mains, or with a vibration pump, for manual filling.

STANDARD FEATURES

- E61 Style Thermo-compensated with pre-infusion chamber
- Four programmable doses per group on EVD
- Manual steam wand
- All stainless steel panels
- Both EVD and EPU Models are available as either direct water connect or pour over option
